The image shows a screenshot of the PubMed website. At the top, the NCBI logo is on the left, and the PubMed logo with the URL www.pubmed.gov is in the center. To the right, it says "A service of the National Library of Medicine and the National Institutes of Health". There are links for "My NCBI", "Sign In", and "Register". Below this is a navigation bar with tabs for "All Databases", "PubMed", "Nucleotide", "Protein", "Genome", "Structure", "OMIM", "PMC", "Journals", and "Books". The search bar contains "PubMed" and "for oncology". There are buttons for "Go", "Clear", and "Save Search". Below the search bar are buttons for "Limits", "Preview/Index", "History", "Clipboard", and "Details". The "Display" section shows "Summary", "Show 20", "Sort by", and "Send to". It also shows "All: 128892" and "Review: 22102". The main content area lists search results, with the first one circled in red: "1: Yong W, Zheng W, Zhu J, Zhang Y, Wei Y, Wang X, Lin N, Xie Y, Xu B, Li J. The International World Wide Web Conference Committee (IW3C2) and the Association for Computing Machinery (ACM) held the 13th World Wide Web Conference in New York City, 17-22 May 2004.

Beginning with the first international WWW Conference in 1994, this prestigious series, organized by the International World Wide Web Conference Committee (IW3C2), has provided a public forum for the WWW Consortium (WSC) through the annual W3C track.

The technical program included refereed paper presentations, alternate track presentations, plenary sessions, panels, and poster sessions. Tutorials and workshops preceded the main program, and a Developers Day, devoted to in-depth technical sessions designed specifically for web developers, followed. [Click here to view the conference proceedings.](#)

The WWW2004 conference was held in Manhattan at the [Sheraton Hotel and Towers](#) 811 7th Avenue at 53rd Street, New York, NY 10019 (212) 561-1000

Conclusiones

- Existe un volumen notable de contenidos en sedes Web académicas y de I+D
- Una parte sustancial aparece en formatos ricos, ligados a la comunicación de la actividad científica
- La preservación de dichos contenidos es esencial y compatible con las iniciativas de *Open Access* y creación de repositorios institucionales y temáticos
- Sin embargo, la preservación debe ser más amplia e involucrar un verdadero Archivo Web de cualquier material publicado
- Se proponen métodos sencillos para crear portales personales e institucionales dedicados al patrimonio digital científico
